

Resident	Room	Time	Title
Sebastian Al-Saiegh	161 P	8:30	Effect of a sedation protocol revision on sedative use in the medical intensive care unit (MICU)
Marwa Amer	161 P	4:15	Identification and management of early sepsis: who does it
Whitney Aultman	207 M	11:30	Assessment of an educational intervention and its impact on medical resident knowledge and comfort level with urine drug
Dana Bachmann	207 M	2:45	Evaluation of Pharmacists' and Pharmacy Interns' Knowledge and Comfort with Dispensing Naloxone without a Prescription in a Community Pharmacy
Ellisa Baddour	162 P	9:30	Valproic Acid (VPA)-induced hyperammonemia: Incidence, clinical significance and treatment management
Kyle Bailey	161 P	9:30	Evaluation of PlasmaLyte on intraoperative acidosis in patients who undergo cardiopulmonary bypass
Marcus Bergman	212 M	9:30	Impact of pharmaceutical bedside deliveries on 30 day readmission rates in a community hospital
Eric Betka	161 P	10:00	Impact of a continuous local anesthetic pain ball on post-operative pain in kidney transplant recipients
Samuel Boateng	162 P	10:30	Evaluation of a pharmacist-driven darbepoetin optimization
Megan Caswell	161 P	3:15	Evaluation of a Heparin Anti-Xa Monitoring Protocol
Nicole Chamberlain	207 M	11:00	The Implementation of a Community Pharmacist-Led Targeted Monitoring Program for Patients at High Risk for
Richard Chan	157 P	10:30	Prevalence and predictors of antipsychotic prescribing in adults with Parkinson's disease. A national cross-sectional
Jennifer Chou	157 P	1:45	Incidence and risk factors for cefepime-induced neurotoxicity in end stage renal disease patients
Kayla Cierniak	158 P	3:45	Code stroke alert: a streamlined process for IV tPA
Marilee Clemons	122 P	8:30	Health Care Insecurity: Effect of a Charitable Pharmacy Model
Corey Coffey	207 M	9:00	Implementing a Systematic Approach to Deprescribing Proton Pump Inhibitor Therapy in the Elderly
Melissa Copley	162 P	4:45	Utilization of clotting factor concentrates for bleeding disorders at a tertiary medical center
Elizabeth Crish	157 P	10:00	Evaluation of Major Bleeding in Patients Receiving Triple Therapy with Dual Antiplatelet Therapy and Oral Anticoagulation
Laura Cwengros	122 P	4:45	Sulfamethoxazole/trimethoprim associated acute kidney injury: Real or a mirage?
Michael Czupryn	207 M	4:45	Dosing of enoxaparin in morbidly obese individuals: A retrospective cohort
Chantale Daifi	212 P	10:30	Evaluation of the dosing appropriateness of erythropoietin stimulating agents (ESAs)
Matthew Delisle	207 M	3:15	Optimizing Central Pharmacy Workflows using Automated Dispensing Cabinets' Percentage Trigger Threshold Refill Technology

Emily Eddy	209 M	1:45	Assessment of Current Trends in the Provision of Patient Care Services and Billing Practices Among Community Based Pharmacists
Sarah Eisho	158 P	9:30	Major bleeding with apixaban in atrial fibrillation: patient characteristics, management, and outcomes
Sarah Elhalis	161 P	10:30	Implementation of Matrix-Assisted Laser Desorption/Ionization Time-of-Flight (MALDI-TOF) and Antimicrobial Stewardship Intervention at an Academic Medical Center
Diana Flounders	209 M	11:00	Implementation of pharmacist led medication reconciliation and education in the emergency department; a pilot project at a small, Planetree community hospital
Megan Foreman	161 P	3:45	Evaluation of inpatient tolvaptan use in a 338-bed hospital with post-evaluation prescriber education and assessment
Colin Frank	212 M	11:30	Pilot study of the effectiveness of a pharmacist-led tobacco cessation mobile health clinic in a rural setting
Dustin Freshwater	158 P	3:15	Use of dalbavancin as an alternative to traditional agents for the treatment of ABSSSI
Jennifer Froomkin	122 P	4:15	Length of stay in heart failure patients hospitalized with acute exacerbations of chronic obstructive pulmonary disease treated with beta-blockers
Frances Shuk Kwan Fu	122 P	3:15	Assessment of the impact of an antibiotic allergy protocol at Summa Health System
Kenneth Furdich	210 M	11:00	Utilization of a Community-Pharmacy Based Algorithm to Triage Pharmacist Care in an Underserved Population.
Whitney Gibson	122 P	3:45	Evaluation of the Efficacy of Combination Dual Antiplatelet Therapy with Oral Anticoagulant Therapy
Rachel Gresko	157 P	9:00	Pharmacist management of vancomycin dosing in the critical care unit of an acute care urban hospital
Corey Groff	161 P	9:00	Cost-avoidance with administering oritavancin in the ED
Derek Gyori	162 P	9:00	Comparison of Vancomycin Regimens and Resultant Trough Concentrations in a Pediatric Population
Meghan Hackerson	210 M	10:00	Addressing Primary Nonadherence: A Collaboration between a Community Pharmacy and a Large Pediatrics Clinic
Sean Hackett	122 P	2:15	Evaluation of a pain, agitation, and delirium order-set protocol
Claudia Hanni	158 P	11:00	Bleeding risk with apixaban versus warfarin in patients with kidney dysfunction
Brittany Harbert	210 M	10:30	Analysis of a consult agreement in a federally qualified health center (FQHC) Look-Alike: a pharmacist-physician approach to managing uncontrolled diabetes

Joshua Harold	210 M	2:45	Effects of an Outpatient Immunization Clinic on Hospital Revenue and Hospital Associated Physician Practices
Samantha Hartings	212 P	10:00	Implementation of a medication assistance program
Gregory Hauler	210 M	9:30	Implementation of two follow-up interactions between a pharmacist and patient after hospital discharge to reduce 30-day readmission rate
Lisa Hayes	161 P	11:00	Implementation of an antimicrobial restriction policy: Is the "paper" more persuasive?
Taylor Hermiller	209 M	9:00	Evaluating the prevalence of antibiotic prescribing in patients with upper respiratory infections in a family medicine practice setting
Hoan Hoang	207 M	1:45	Utilization of Data Analytics for Investigating
Courtney Hochman	162 P	4:15	COPD Discharge Consult Service: Pharmacist intervention in reducing hospital readmissions
Nicholas Horsfall	158 P	4:15	Impact of FilmArray Technology on Patient Outcomes in Intensive Care Unit Bacteremias
Mallory Houtchens	157 P	11:30	Vancomycin dosing in obese patients: A retrospective case-control study
Mitchell Howard	207 M	8:30	Impact of implementing a sports-focused supplement section on pharmacist-patient relationships and sales in a community pharmacy
Joseph Huenecke	161 P	11:30	Assessment of Glycemic Control in Diabetic Patients While Unable to Eat
Olivia Huprich	209 M	10:30	Impact of a pharmacist-led transitions of care model in patients with a primary admission diagnosis of congestive heart failure exacerbation
Adam Ingram	210 M	11:30	Evaluating the Impact of a Pharmacist on Guideline Directed Medical Therapy in Patients with Reduced Ejection Fraction Heart Failure
Tyler Jauss	157 P	8:30	Analysis on the efficacy of intravenous to oral antibiotic therapy transition in IV drug abusers with Staphylococcus aureus bacteremia
Joseph Johnson	122 P	2:45	Azithromycin and Septic Shock Outcomes
Monica Johnson	207 M	9:30	Assessment of school nurses' attitude toward collaboration with community pharmacists in Ohio
David Jordan	212 P	9:30	Decreasing duration of antimicrobial therapy in patients with hospital-acquired pneumonia
Brian Joslin	212 M	9:00	Implementation of a pharmacist driven oral chemotherapy counseling service in an outpatient cancer care center
Kayla Joyner	157 P	11:00	Comparison of Narrow versus Broad Spectrum Antibiotics in Elderly Patients with Acute Exacerbations of Chronic Obstructive Pulmonary Disease
Shaina Kalasho	157 P	2:45	Vancomycin for the Treatment of Coagulase-Negative Staphylococcus Bacteremia: Does MIC Matter?

Maeve Kallenbach	212 P	1:45	Treatment Choice and Outcomes for Oncology Patients Diagnosed with Venous Thromboembolism
Ayoung Kim	207 M	10:00	Impact of pharmacist-led interventions in the management of prediabetes in medically underserved patients
William Kirsch	161 P	1:45	Identifying perceptions of adherence in Human Immunodeficiency Virus (HIV)-positive patients through individual elicitation interviews
Tiffany Kneuss	212 P	2:15	Analysis of the incidence of hypoglycemia upon initiation of tramadol
Kathryn Koliha	209 M	2:45	Comparative evaluation of pharmacist managed vancomycin dosing in a community hospital following implementation of a system-wide vancomycin dosing guideline
Laura Kuhn	209 M	11:30	Targeting Self-Efficacy in a Charitable Pharmacy Smoking Cessation Program for the Underserved Population
Amanda Lanker	212 P	9:00	Impact of utilizing rapid pathogen identification with pharmacist intervention on time to appropriate antimicrobial agents
Brian Lauer	162 P	3:45	Evaluation of hypertonic sodium solution guideline compliance at a large academic medical center
Alison Lobkovich	210 M	4:15	Validation of a checklist to evaluate student performance in a problem based learning group
Meredith Martin	207 M	3:45	Impact of pharmacist-driven post-discharge medication reconciliation on 30-day readmission rates: a retrospective chart review.
Daraoun Mashrah	157 P	4:45	Evaluation of Adjunctive Therapy in the Management of Alcohol Withdrawal Syndrome in Critically Ill Patients
Taylor Mathis	209 M	4:15	Phamily Matters: A look at the role social support plays in improving the outcomes of pharmacist-delivered disease state management services
Rachel Maxwell	212 M	10:30	Clinical and Humanistic Outcomes of Face-to-Face and Telehealth Warfarin Management
Sean McConachie	210 M	3:45	A 30-day Hospital Readmission Prediction Index with Quarterly Iterative Adjustment
Carly McKenzie	162 P	3:15	Impact of a Pilot, Pharmacy-led Tobacco Cessation Medication Protocol at Discharge in a Community Hospital
Bree Meinzer	210 M	9:00	Effectiveness of a pharmacist-directed Tdap immunization program for a university campus
Derek Michalski	162 P	2:45	Evaluating hemodynamic effects of clevidipine in cardiothoracic surgery patients with reduced ejection fraction
Insaf Mohommad	210 M	8:30	Outcomes of Chronic Care Management (CCM) in Primary Care Practice

Jason Moran	158 P	10:00	Evaluation of hyperglycemic crises management in the medical intensive care unit.
Karim Mouabbi	162 P	10:00	Evaluation of anticoagulation treatment in patients with massive or submassive pulmonary embolism and concurrent deep vein thrombosis
Lisa Mueller	210 M	1:45	Impact of Pharmacist-Provided Spirometry Service on Access to Results in Primary Care Setting
Rachel Muhlenkamp	158 P	8:30	Alert fatigue reduction: The impact of dosage alert changes in a large health system
Kaitlynn Napholz	212 P	8:30	Implementing a pharmacy-led medication reconciliation program for patients in a community hospital emergency department
Khang Nguyen	161 P	2:15	Comparison of standard vs extended durations of antimicrobial therapy for hospital-acquired pneumonia
Jerome Pasquale	212 P	11:30	Evaluation of a Pharmacist-Led Medication Reconciliation Program in a Psychiatric Population
Niketa Patel	158 P	9:00	Analysis of potentially inappropriate medication (PIM) use in the older adult population at an academic medical center
Jasmini Patel	207 M	2:15	Compliance to United States Pharmacopeia (USP) 800: A gap-analysis
Priyasha Patel	210 M	2:15	Incidence and Monitoring of Drug-Induced QTc Prolongation in a Primary Care Setting
Kimberly Perkins	158 P	2:45	Retrospective review of the comparative effectiveness between antipsychotics used to treat delirium in the intensive care unit
Keith Pohlman	212 P	3:15	Effect of pharmacist education on methylnaltrexone prescribing habits
Benjamin Pontefract	207 M	4:15	Impact of pharmacist lead disease state management in a primary care clinic
Josh Postolski	209 M	3:45	Pharmacist Incorporated Discharge Planning in Skilled Nursing Facilities as a Means of Decreasing Rehospitalizations
Ulyana Povroznik	162 P	2:15	Implementation and evaluation of pharmacist managed vancomycin per hospital protocol: A pre and post analysis
Rebecca Prewett	212 P	2:45	The ONESCOP study: The pharmacist's impact on acute ischemic stroke care
Jelena Radan	161 P	2:45	Association between Tacrolimus Levels in the first 12 months post-operatively and Long Term Graft loss in Renal Transplant Patients
Jacob Radcliff	158 P	10:30	Outcomes Resulting from Three-Day Tramadol Taper for Acute Opioid Withdrawal at Summa Health System
Lindsey Rayhill	162 P	1:45	Characterization of therapies used for post-operative pulmonary hypertension: Phase I
Aimrie Ream	212 M	10:00	Evaluation of pharmacist monitoring of direct oral anticoagulant therapy

Paulina Reizian	122 P	1:45	Impact of Vancomycin Concentration Change on Incidence of Red-Man Syndrome in Pediatric Patients
Claudia Rondon	122 P	9:00	Evaluation of Clinical Pharmacists' After-hours Consults for Hospice Patients
Deanna Ruble	122 P	9:30	Characterizing Heart Failure in an Underserved Population
Danny Salem	122 P	11:30	Effect of cefepime versus piperacillin/tazobactam on hospital-acquired Clostridium difficile infections (CDI)
Nouran Salem	157 P	3:15	Tranexamic acid (TXA) use in Level 1 trauma patients who receive massive transfusion protocol
Jacklyn Sampson	209 M	3:15	Impact of Pharmacist-Managed Educational Visits on Hypertension in an Underserved Population
Leah Schomburg	157 P	2:15	Incidence of falls in hospitalized elderly patients prescribed potentially inappropriate medications
Melody Smith	162 P	11:00	Evaluation of an electrolyte replacement protocol in critically ill patients at a community hospital
Brittany Snyder	157 P	9:30	Comparison of adherence to manufacturer dosing recommendations with apixaban, dabigatran, and rivaroxaban therapy
Katie Stollar	157 P	3:45	Evaluation of a pharmacist-led patient controlled analgesia (PCA) dosing service
Lydia Suchecki	158 P	2:15	Incidence of hypoglycemic episodes in hospitalized patients on a sulfonylurea versus an insulin regimen: an evaluation of therapy and management
Alexandra Ting	158 P	1:45	Evaluation of pharmacy interventions in an academic outpatient transition of care clinic
Katie Tourjee	212 P	3:45	Effect of Patient Medication Counseling by a Pharmacist at Hospital Discharge on Patient Satisfaction Survey Results in a Community Hospital Setting
Lindsay Tsai	207 M	10:30	Impact of a Smartphone Application on Medication Adherence in the Community Care Setting
Laine Vicarel	212 P	4:15	Impact of pharmacist intervention on Primary Care 10 (PC10) measures in primary care practices
Kim Walker	162 P	11:30	Evaluation of qSOFA criterion and derivation of new variables.
Matthew Walker	212 P	11:00	Retrospective evaluation of proton pump inhibitor prescribing within a community teaching hospital
Kirsten Wallskog	157 P	4:15	Effect of induction immunosuppression selection on three year opportunistic infections and safety outcomes in adult renal transplant recipients
Jennifer Ward	209 M	2:15	Enhanced medication awareness in hospice patients through a medication perception survey and individualized patient and caregiver education: a pharmacist-led initiative.
Rachel Wein	122 P	11:00	Management of Alcohol Withdrawal in Medical Intensive Care Unit Patients

2017 OPRC
by Resident

Resident Presentations

Kyle Weslosky	212 M	11:00	Reducing readmissions through pharmacist-led chronic obstructive pulmonary disease (COPD) education at a rural, community hospital
Jangus Whitner	209 M	9:30	Assessing appropriateness of NSAID prescribing in patients with hypertension, heart failure, or chronic kidney disease in a Family Medicine practice setting
Rachel Wilde	158 P	11:30	Efficacy of low-dose ketamine for acute pain in a community hospital emergency department
Kevin Williams	209 M	10:00	Clinical Outcomes Associated with the Implementation of an Antimicrobial Stewardship Program Focused on Treatment of Urinary Tract Infections in a Long Term Care Facility.
Lauren Wolf	122 P	10:30	Impact of Intermittent versus Continuous Infusion of Fentanyl after Rapid Sequence Intubation on ICU Delirium
Janet Wu	122 P	10:00	Risk factors for colonization or infection with cefepime resistant, piperacillin-tazobactam susceptible Gram-negative bacilli
